SATURDAY, FEBRUARY 3, 1906.

If you want all the people to know that you are a candidate put your announcement in THE HERALD.

Last year a human life was saved by the United States Life-saving service every ninety minutes. Out of 5230 people whose lives were imperiled, only twenty-nine were drowned.

The HERALD does not aspire to be a "moulder of public opinion." We confine ourselves strictly to printing the news and nothing but the news. We concede to our readers the privilege of forming their own opinions.

New York will support Bryan in the Denver convention. This, leading Democrats declare is the real significance of the calling off of the proposed conference of conservative Democrats called to meet at the Waldorf Thursday.

At the meeting of the house committee on coinage, weights and measures on Tuesday next, a bill will be prepared for the return of the motto "In God We Trust" to the gold coins. There seems no doubt the bill will go through promptly.

As a result of the prohibition movement in the south, the Illinois Glass company at Alton is swamped with orders for soda bottles and extra blowers are working night and day. It is a remarkable fact that the whiskey bottle orders have not diminished.

The assumption that the south is solid for Taft or that it will be controlled by the office holders and turn the southern states over to the president's candidate, is denied by a number of political observers, who insist that there is a strong opposition to the secretary in the southern states.

An antenuptial bargain has been made between Gladys Vanderbilt, heiress to \$12,000,000 in her own right, and Count Laszlo Szechenyi, heir to nothing in particular but a funny name, by the terms of which they agree to share and share alike in each other's fortune, neither passing title to the other.

According to statistics published at the time of the starting of the Pacific practice cruise, the United States stands second among the navies of the world in the tonnage of her warships. The total displacement of our fighting vessels is 611,616 tons. We stand third in the number of heavy guns, but only fifth in the number of ships and enlisted men. In all these classes, Great Britain is in the lead.

"If the parcels post were established on the 38,000 rural routes throughout the country for the delivery of parcels originating on these routes and for delivery within their territory, and if each rural free delivery carrier carried but three packages of eleven pounds each on every trip, the entire postal deficit which in 1907 was \$8,653,282, would be wiped out." Postmaster General George Von L. Meyer thus succinctly sums up what he hopes to accomplish if his parcels post scheme goes into effect.
